

Your free wallet card!

AARP Utah fought for the Patient Designated Caregiver Rule to help family caregivers when their loved ones go into the hospital and as they transition home. We hope you will cut out the cards below, and place them in your and your loved one's wallets. That way, you'll both have the important information about this new law available when you need it most.

How to make your wallet cards:

1. Print this page, double sided if possible.
2. Cut your cards out.
3. If you didn't print double sided, tape front and back of cards together.
4. Laminate if desired.
5. Place cards in your and your loved one's wallets.

**Patient Designated
Caregiver Rule**

BACK

The Patient Designated Caregiver rule requires hospitals to:

- ♥ Provide your loved one the opportunity to designate a family caregiver
- ♥ Inform you when your loved one is to be discharged to another facility or back home and provide you with a written discharge plan
- ♥ Give you explanation and instruction of the medical tasks you will need to perform at home
