Dear Senator Padilla,

As one of your constituents and an AARP member, I urge you to ... fight back against the increasing cost of prescription drugs ... and oppose any attempt to cut Medicare benefits or shift even higher costs to older Americans. I also encourage you to update and strengthen Social Security to ensure that we receive the benefits we have earned. Seniors should not be forced to choose between the medicines they need to enjoy active lives and basics such as food. And Americans have paid into Medicare and Social Security over their lifetimes, and they count on these two programs for a healthy and secure retirement. Do the right thing, and act in the interests of your older constituents.

Sincerely,

Dear Senator Padilla,

Americans pay the highest prices for brand name prescription drugs in the world simply because Congress allows drug companies to dictate their own prices. Through their massive lobbying efforts and political campaign contributions, the big drug companies have monopolies that allow them to charge outrageous prices and laws that block Medicare officials from negotiating lower prices and prevent the importation of safe, affordable drugs from other countries. As one of your constituents and as an AARP member, I strongly urge that you act in the interest of your constituents ... not the drug companies ... and pass legislation that permits Medicare to negotiate reasonable prices, cracking down on the drug industry's monopolies and allowing for the safe importation of more affordable drugs.

Sincerely,

(see attached list of petition signers)
