

Dear Senator Gillibrand,

"As one of your constituents and an AARP member, I urge you to oppose any attempt to cut Medicare benefits or shift even higher costs to older Americans ... and fight back against the increasing cost of prescription drugs. I also encourage you to protect and strengthen Social Security to ensure we receive the benefits we have earned. Americans have paid into Medicare and Social Security over their lifetimes, and they count on these two programs for a healthy and secure retirement. And seniors should not be forced to choose between the medicines they need to enjoy active lives and basics such as food. Do the right thing, and act in the interests of your older constituents."

Sincerely,

(see attached list of petition signers)
